

July 2006 - Catalyst's Quality Assurance (QA) division has achieved ISO 9001:2000 certification.

“Achieving ISO 9001:2000 certification is definitely a milestone for our company and gives us an advantage over our competitors,” said Iran Brown, Director of Quality Assurance for Catalyst IT Services. “This certification demonstrates that we have the attention to detail and the quality management system in place to effectively and efficiently provide QA services that will exceed our clients’ expectations.”

According to information from the website for the International Organization for Standardization, “ISO 9001:2000 specifies requirements for a quality management system for any organization that needs to demonstrate its ability to consistently provide product that meets customer and applicable regulatory requirements and aims to enhance customer satisfaction.”
