CHIMES CHOOSES CATALYST IT SERVICES TO IMPLEMENT CONTENT MANAGEMENT SOLUTION, ENHANCE BUSINESS INTELLIGENCE CAPABILITIES

CHIMES, an international multi-service agency delivering a wide range of programs, services, and support for nearly 10,000 people each year, has chosen Catalyst IT Services to implement a new content management solution that will facilitate employment applications, allow for easier communications with external and internal constituencies, and be Section 508 compliant.

CHIMES is simultaneously engaging Catalyst to enhance business intelligence systems, including design and deployment of a range of reporting solutions for different levels of management.

ABOUT CHIMES

For over half a century, the Chimes Organization has expanded to an international multi-service agency generating \$150 million in revenue each year and delivering a wide range of programs, services and support for nearly 10,000 people of all ages and many levels of ability. The Chimes family of services includes agencies in six states, the District of Columbia, and Israel assisting people with disabilities including mental retardation, mental illness and other disabilities. In particular, Chimes employs thousands of disabled individuals to serve on contracts for a variety of clerical services.

ABOUT CATALYST IT SERVICES

Catalyst IT Services is the leading onshore alternative to offshore information technology outsourcing. Through our regional development centers in the United States, Catalyst offers application development and maintenance, enterprise content and collaboration management, business intelligence and reporting solutions, independent validation and verification, training and knowledge sharing, and information technology planning and strategy to Fortune 500, middle-market, and healthcare clients.

Catalyst IT Services provides flexible solutions from its domestic facilities or on client sites with communication, control and consistent quality unattainable by its overseas competitors, at a cost unmatched by its domestic competitors. Using its deep expertise in both leading edge and legacy technologies, Catalyst is able to evaluate and deploy the appropriate technology to solve its clients' business challenges, while providing the convenience, flexibility, and control its clients can enjoy only with a local partner.
