June 2009

CATALYST IT SERVICES RENEWS GOLD CERTIFIED PARTNER STATUS IN THE MICROSOFT PARTNER PROGRAM

Catalyst IT Services, the leading onshore alternative to offshore outsourcing and a technology strategy and implementation partner to some of the most preeminent companies and health care providers in the United States, today announced that it had renewed its Gold Certified Partner status in the Microsoft partner program. Gold Certified Partners represent the highest level of competence and expertise with Microsoft technologies, and Catalyst's work with organizations such as ARAMARK, AT&T, Comcast, Johns Hopkins Medical Institutions, Children's National Medical Center, RWD Technologies and MedStar Health has underscored this record of the highest quality of technology evaluation and implementation. Its renewal of its status underscores its continued exceptional levels of customer satisfaction from its deep and long standing partnerships with its clients.

Catalyst's areas of deepest competence in the Microsoft suite of technologies include the Data Management and Information Worker competencies, which focus on technologies and business issues including SharePoint, Visual Studio, BizTalk, and SQL Server, and deployments of these technologies to solve issues related to document and content management, reporting, data warehousing, and a range of application development, integration, and maintenance needs. Catalyst's continued status at the highest level of Microsoft partnership is a testament to Catalyst's creative and effective deployment of these technologies to solve a wide range of business challenges faced by its clients.

ABOUT CATALYST IT SERVICES

Catalyst IT Services is the leading onshore alternative to offshore information technology outsourcing. Through our regional development centers in the United States, Catalyst offers application development and maintenance, enterprise content and collaboration management, business intelligence and reporting solutions, independent validation and verification, training and knowledge sharing, and information technology planning and strategy to Fortune 500, middle-market, and healthcare clients.

Catalyst IT Services provides flexible solutions from its domestic facilities or on client sites with communication, control and consistent quality unattainable by its overseas

competitors, at a cost unmatched by its domestic competitors. Using its deep expertise in both leading edge and legacy technologies, Catalyst is able to evaluate and deploy the appropriate technology to solve its clients' business challenges, while providing the convenience, flexibility, and control its clients can enjoy only with a local partner.
