January 2009

RWD TECHNOLOGIES CHOOSES CATALYST IT SERVICES TO DEVELOP CUSTOM OFFLINE EXPENSE REPORT SOLUTION

Catalyst IT Services has recently completed development of a system that allows RWD's user community of more than 1,200 employees to complete expense reports without being connected to a company network. This has resulted in significant time savings and boosted productivity by allowing employees to take advantage of down time, and by simplifying the interface used to enter data.

Speaking about the change, RWD's CIO Bill Huber said "now our staff is completing expense reports on their flight home or in a hotel in the evening, then uploading them later, streamlining the process while increasing the accuracy and effectiveness of the expense reimbursement process".

The new system was developed using Microsoft Office SharePoint Server and InfoPath, interfaced with RWD's installation of SAP through a Service Oriented Architecture. All development was done on an outsourced basis with Catalyst development staff interfacing with RWD stakeholders and technical staff.

ABOUT RWD TECHNOLOGIES

RWD Technologies is a leading provider of human and operational performance improvement solutions that help employers maximize the return on their investments in people, processes, technology, knowledge, and customers.

RWD Technologies is a privately held, U.S.-based corporation focused on increasing worker productivity, product quality, and bottom-line financial performance. Founded in 1988, RWD develops, implements, and supports services in the areas of Performance Solutions, Enterprise Learning, and Applied Technologies.

RWD has built a strong reputation by delivering technology and training solutions that help operational efficiency and reduce costs by streamlining processes and procedures. Based in Baltimore, Maryland, RWD serves Fortune 500 and major multinational corporations around the world. RWD's solutions are used in more than 20 industries,

including finance, pharmaceuticals, petrochemicals, manufacturing, automotive, rail, telecommunications, healthcare, and consumer products.

RWD has annual revenues of over \$160 million, and more than 1,000 employees working out of offices in the United States, United Kingdom, France, Germany, Australia, and Canada. In addition, RWD's international consultants and partners serve clients in every corner of North America, Europe, and Asia.

ABOUT CATALYST IT SERVICES

Catalyst IT Services is the leading onshore alternative to offshore information technology outsourcing. Through our regional development centers in the United States, Catalyst offers application development and maintenance, enterprise content and collaboration management, business intelligence and reporting solutions, independent validation and verification, training and knowledge sharing, and information technology planning and strategy to Fortune 500, middle-market, and healthcare clients.

Catalyst IT Services provides flexible solutions from its domestic facilities or on client sites with communication, control and consistent quality unattainable by its overseas competitors, at a cost unmatched by its domestic competitors. Using its deep expertise in both leading edge and legacy technologies, Catalyst is able to evaluate and deploy the appropriate technology to solve its clients' business challenges, while providing the convenience, flexibility, and control its clients can enjoy only with a local partner.
