

FOR IMMEDIATE RELEASE

January 15, 2008

RWD TECHNOLOGIES SELECTS CATALYST IT SERVICES FOR SHAREPOINT IMPLEMENTATION

RWD Technologies, a professional services organization with over 1,000 employees worldwide, has chosen Catalyst to implement a full document management solution for the enterprise. The solution will allow easier and more efficient collaboration, document sharing, and teamwork across employees in different states and on different continents. Catalyst will be architecting, developing, and deploying a solution based on Microsoft SharePoint Server 2007 and related services, a solution that Catalyst has supported for Fortune 500 and smaller and middle market enterprise clients.

ABOUT CATALYST IT SERVICES

Catalyst IT Services is the leading onshore alternative to offshore information technology outsourcing. Through our regional development centers in the United States, we offer application life cycle development, implementation and support, and quality assurance and testing solutions to Fortune 500 and middle-market clients.

We are able to provide flexible solutions from our domestic facilities or on client sites with communication, control and consistent quality unattainable by our overseas competitors, at a cost unmatched by our domestic competitors. How do we do it? Through data-based labor arbitrage, a proprietary system that allows us to find the very best programming talent undiscovered by our competitors. Using our deep expertise in both leading edge and legacy technologies, we are able to deploy the appropriate technology to solve our clients' business challenges, while providing the convenience, flexibility, and control our clients can enjoy only with a local partner.
